

## July 2022, Prayer Letter

**As we enjoy the sunshine, remember what the sun is; what God's purposes are for the sun. God has given us the sun and moon to 'separate the day from the night' and 'for signs and for seasons, and for days and years' and 'to give light on the earth' and 'the greater light to rule the day'**

**Genesis 1:14-16**

Summer is definitely here! We thank you Lord for giving us this warmth, we are grateful to have the sun shining on our homes and gardens. Spending time with our family and friends during this wonderful time of year is so special for us all.

But for those experiencing homelessness and sleeping rough this weather can be so dangerous. With no access to clean drinking water, sunscreen and decent shade our clients are open to the elements. Sun stroke can easily take control of your body if you are unable to protect yourself.

Please keep our clients in your prayers this summer. Pray for them to find shelter, shade and clean water. Pray for them to be supported by Shekinah.

**Thank you God today for the beauty the sunrise it is glowing over the earth and sky.  
I open my eyes to beauty transcending, flowing, like a river from heaven winding by.  
For without knowing the good lords love descends.  
Amen.**
