

Shekinah Prayer Letter February 2026

February may be the shortest month, but its longer days and first hints of Spring bring a sense of hope. As Winter's grey begins to fade into Spring's green, it feels as though the world has been holding its breath, waiting for January to finally end, a month that always seems to stretch on after the Christmas festivities.

As we begin to think about the plans we have for the year ahead, we pray:

Lord, thank you for a new year and a new month filled with fresh opportunities to impact those around us. Open the doors that are still closed, give our teams wisdom as they make decisions, and strengthen the relationships between our staff, our clients, and our community.

Amen.
